

# Fourth Environmental Action Plan

These are the results of the Fourth Environmental Action Plan (fiscal 2006 to 2010) and results of the activities for fiscal 2008.

We have set more challenging objectives and are continuing those activities which we have already achieved their goals.

Theme	Implementation	Results of the Activities in Fiscal 2008	Reference page																																																						
Energy saving/prevention of global warming	<b>Development/Design</b> ① Development of products and technologies which contribute to first-rate fuel consumption ▶ Development of products and technologies for weight reduction ▶ Development of products and technologies with lower power consumption ▶ Development of products and technologies for improving aerodynamics ② Development of built-in parts for clean energy vehicles and their effective introduction/ popularization ▶ Development of products and technologies for fuel-cell vehicles ③ Development of technologies for various energy sources and fuels ▶ Development of products and technologies for vehicles ▶ Materials compatible with new fuels	▶ Examples of development in weight reduction ..... — Developed a fuel inlet pipe made of Plastic	P28																																																						
		④ Reduction of CO <sub>2</sub> in production and Logistics activities ▶ Production case studies — Independently developed a molding machine ..... ▶ Efforts for logistics ..... — Improved efficiency of loading — Localization of productions among customers — Focused extensively on fuel-efficient driving	P28 P29

		Item	Goals for Fiscal 2010	Results for Fiscal 2008		Evaluation <sup>[3]</sup>																																																			
Production	Consolidated	CO <sub>2</sub> emissions per sales unit	Reduce by 8% compared to fiscal 2003	90 <sup>[2]</sup>	Achieved a 10% reduction compared to fiscal 2003	○	P28																																																		
	Non-consolidated	CO <sub>2</sub> emissions	Reduce by 10% compared to fiscal 2003	117,000 tons of CO <sub>2</sub>	Achieved a 5% reduction compared to fiscal 2003 (Increased by 1% compared to fiscal 1990)	○	P28																																																		
	Non-consolidated	CO <sub>2</sub> emissions per sales unit	Reduce by 15% compared to fiscal 2003	86 <sup>[2]</sup>	Achieved a 14% reduction compared to fiscal 2003	○	P28																																																		
Logistics <sup>[1]</sup> (Non-consolidated)		CO <sub>2</sub> emissions	Reduce by 10% compared to fiscal 2003	12,816 tons of CO <sub>2</sub>	Achieved a 4% reduction compared to fiscal 2003	○	P29																																																		
		CO <sub>2</sub> emissions per sales unit	Reduce by 10% compared to fiscal 2003	88 <sup>[2]</sup>	Achieved a 12% reduction compared to fiscal 2003	○	P29																																																		
Recycling of resources	<b>Development/Design</b> ⑤ Development of recycling technologies ▶ Development of technologies for improving ELV* parts recycling ⑥ Further promotion of designs which facilitate recycling ▶ Further promotion of designs which facilitate recycling and their application to products *End of Life Vehicle	▶ Efforts for enhancing recycling efficiency ..... — Promoting new recycling techniques — Responded to regulations of laws, such as the European Union's (EU) ELV* Directives and to the ELV Recycling Law	P29																																																						
		⑦ Further promotion of effective utilization of resources for realizing the recycling society ▶ Production case studies ..... — Waste rubber reduction through desulphurization technology ▶ Efforts for logistics ..... — Reduction of packaging materials	P30 P30
