

## Environmental action plan

### Sixth environmental action plan activities and results (FY2016-FY2020)

Our efforts to achieve a sustainable society have been focused in four areas: “Building a decarbonized society,” “Building a recycling society,” “Building an environmental preservation and nature-friendly society,” and “Environmental management.”

As a result of the collective efforts of the entire Toyoda Gosei Group, we have achieved our targets for all of key items (CO<sub>2</sub>, waste, water).
