

ISO 14001 environmental audit

Toyota Gosei and its domestic and international affiliates acquire ISO 14001 environmental management system certification. Internal environmental audits are carried out by audit teams composed of members from business areas outside those being audited in order to raise the independence and objectivity of the audits. Toyota Gosei Co., Ltd. commissions external reviews by the Japan Quality Assurance Organization (JQA) to assess whether our environmental management systems are run properly in accordance with ISO14001.

Activities to eliminate compliance and environmental violations and complaints

Regular checks are conducted by expert departments and maintenance and management are carried out to ensure legal compliance and no environmental problems or complaints. Preventive activities such as environmental preservation walks are also conducted to combat risks. In addition, we analyze problems that occur at other companies, inspect similar facilities including those at

ISO14001-certified production sites

Toyoda Gosei	10 plants* (FY2018)
Affiliates in Japan	9 companies
Overseas Affiliates	Americas: 12 companies, Asia: 7 companies, China: 6 companies, Europe/ Africa: 3 companies

* Currently 7 companies after establishing a subsidiary in Kyushu (Toyota Gosei Kyushu Co., Ltd.) and transferring business from 3 Toyoda Gosei plants in Kyushu (Fukuoka Plant, Saga Plant, Kitakyushu Plant) (April 2019)

domestic and international affiliates, and take preventive measures.

We are ensuring proper disposal of equipment containing polychlorinated biphenyl (PCB). So far, we have completed disposal of waste from 848 units. We are continuing these efforts to dispose of untreated low-level PCB waste at an early date.

Environmental education

Toyota Gosei educates employees on environmental problems including the destruction of nature and environmental pollution, the impacts on the environment of production activities, and compliance

with environmental regulations. The content each year emphasizes understanding and practices based on legal trends, with examples incorporated to create specific and understandable teaching materials.

Education for supervising managers		
Education for key environmental facility workers		
Education for general workers		

Activities to raise environmental awareness

We are attempting to raise the environmental awareness of employees through Environment Month events, regular environmental lectures, and other activities so that all employees have an awareness of the environment in their

activities for ongoing environmental protection.

We also conduct a questionnaire survey of employees each year to assess their environmental awareness and plan educational activities based on the results.
