

# Toyoda Gosei at a Glance

Since our establishment in 1949, we have worked closely with stakeholders in development, design, procurement, production, and sales to deliver high-performance, high-quality products and services built on our expertise in synthetic rubber and plastics, and the technical know-how for synthesizing them.

Founding

76 years

Toyoda Automatic Loom Works established a Rubber Research Department in 1934, from which Toyoda Gosei's predecessor, Nagoya Rubber, was born in 1949. Over more than 70 years, we have provided value to society centered on rubber and plastics technology.

Number of employees (Global)

39,192

Customer sales ratio

Airbag share

Global 18%

Toyoda Gosei makes 18% of the world's airbags. We are one of four companies that together have a global share of about 90%. Toyoda Gosei is always one of the top four.
