Value Creation Story About Toyoda Gosei **Value Creation Story** Value Creation Strategy Foundation of Value Creation

Safety Systems (SS)

¥179.1

Since starting mass production of driver-side airbags in 1989, we have introduced various airbags to the market, achieving full 360° coverage that protects occupants against impacts from different directions. In addition to producing pedestrian protection devices, we are actively developing next-generation technologies, such as preventive safety.

Interior and Exteriors (IE)

Interior and Exteriors

We offer a wide range of interior parts, including instrument panels and console boxes that enhance interior comfort, as well as exterior parts like radiator grilles that contribute to vehicle design. Often positioned in prominent locations, our products offer not only exceptional functional performance, they are also aesthetically appealing.

Radiator grilles

Functional Components (FC) Tunctional Components

Our fuel and brake-related components are essential for supporting the fundamental functions of "driving," "turning," and "stopping." Alongside exceptional quality, we pursue weight reduction and compact design, maintaining a world-class market share over many years.

Weatherstrips (WS)

Safety Systems

¥414.6

Products like door and window seals protect interiors from rain, wind, and noise, while also aiding smooth opening and closing of doors and windows. These products hold a top market share globally and are supplied from production bases both in Japan and internationally.
